## PROFESSIONAL EXPERIENCE

- Technical Support Representative

Jul 2024 – Mar 2025

Quantrics Enterprises Inc. (Bell Canada)

  - Resolved 50+ internet, TV, and phone service issues daily via phone, chat, and remote troubleshooting, maintaining high CSAT scores.
  - Maintained accurate CRM records and documented resolutions, reducing repeat contacts and improving the team knowledge base.
  - Leveraged AI tools and structured troubleshooting workflows to cut average handle time and improve first-call resolution.
- Customer Service Representative

Aug 2022 – Feb 2024

Telus International

  - Handled 100+ inbound calls daily covering billing, account management, and service plans, consistently meeting quality benchmarks.
  - Identified recurring process gaps and escalated improvements to team leads, contributing to measurable operational efficiency gains.
  - Maintained empathetic, professional communication with diverse customers, achieving above-average satisfaction scores.
- Customer Service Representative

Sep 2021 – Jul 2022

Sitel Group

  - Resolved product inquiries, purchases, and returns in a fast-paced BPO environment with strong customer satisfaction scores.
  - Demonstrated product knowledge to guide customers toward informed purchase decisions, supporting upsell targets.

## AUTOMATION PROJECTS

- GoHighLevel CRM System** — Built full lead pipeline with automated follow-up sequences, stage triggers, and SMS/email nurturing; designed integrated funnels to capture and convert leads automatically.
- Multi-App Workflow Automation** (Zapier · Make.com · n8n) — Connected CRMs, email, spreadsheets, and Slack via zero-code solutions, reducing manual processing by ~70% across 5+ platforms.
- LLM-Powered Response Automation** — Integrated LLMs into customer service workflows using prompt engineering to generate context-aware automated replies.
- Airtable Database & Workflow Automation** — Built relational databases for lead tracking with automated views and record-triggered notifications; synced with Zapier and Make.com for multi-step workflows.
